

International Symposium

Cytoskeletal dynamics and image analysis

October 8 - October 9

Rolduc/NL

Keynote speakers:

Anna Akhmaninova, Rotterdam

Karl Rohr, Heidelberg

Vic Small, Vienna

The aim of the two day meeting is to bring together researchers from various fields with an interest in the cytoskeleton. Special attention will be paid to the intermediate filament cytoskeleton and its contribution to epithelial function by taking an interdisciplinary multiscale approach. A specific focus will be on the use of image analysis as a way to quantitatively describe intermediate filament dynamics.

Organizers: R. Leube, T. Aach

Program:

Thursday, 8. Oct 2009

12:15	Bus transfer from Aachen
13:00	Snacks, Registration
14:00	Welcome
14:05	Keynote 1
15:00	Session 1
16:00	Coffebreak
16:30	Session 2
18:00	End of Session 2
18:30	Guided Tour
19:30	Dinner

Friday, 9. Oct 2009

8:00	Breakfast
9:00	Keynote 2
10:00	Session 3
11:00	Coffebreak
11:30	Session 4
13:00	Snacks
14:00	Session 5
16:00	End of Meeting, Bus transfer to Aachen

The abbey Rolduc was founded by Augustinian monks in 1104 and it is still used as a seminary and for international conferences. It was declared a „Rijksmonument“ and is located in Kerkrade near the German border.
